A metal forestry tool, possibly a specialized saw or a marking tool, is shown against a light-colored, textured background. The tool consists of a central rectangular plate with a small circular hole on its right side. Two long, thin blades extend from the bottom of the plate at an angle. A handle or support arm is attached to the top of the plate, featuring a circular end with a central hole. The text "FORESTRY COMMISSION RESEARCH STATION, ALICE HOLT, FARNHAM." is engraved on the central plate.

FORESTRY COMMISSION
RESEARCH STATION,
ALICE HOLT,
FARNHAM.
